

BUSINESS REFERRAL GROUPS

Leveraging the Chamber network
to drive referrals your way

About the Chamber

The Manhattan Chamber of Commerce is the convener, voice and advocate of the 125,000+ businesses across the borough of Manhattan, which is the heart of New York City's economy.

We're focused on advancing the economic vitality of our region by building a strong and thriving climate for the broad business community, including small businesses, startups and larger companies.

While there are significant advantages to doing business in New York, we provide meaningful solutions to overcome the biggest challenges facing businesses here. Since 1920, the Chamber's mission is to empower its business members to thrive.

Our organization is business-minded, community-focused and future-driven.

About BRGs

Business Referral Groups (BRGs) help you develop a strong and lasting network that will drive business referrals your way.

These are lead generation groups of approximately 15-40 people who get together on a regular basis (either in-person or online) and learn one another's business so they can refer you to others. Only one person per industry/profession is allowed in each group in order to create a non-competitive environment where business referrals are openly given and received.

All members of the Chamber are eligible to join a BRG, as openings allow. There is an annual \$100 fee above membership dues in order to participate. We currently have 4 BRGs: BRG1, BRG2, BRG4 and BRG5.

Meet the Groups

Currently, the Chamber has three dynamic groups (with more on the way). Each group has its own personality, style and meeting cadence. To determine which group might be the best fit, you may attend two meetings before committing to join a BRG. Information about each group can be found below.

BRG 1: "The Original"

Meets at a midtown location every other Wednesday, 8:35 AM to 9:35 AM

BRG1's members represent a cross-section of the local economy, ensuring that its members never have to look far for the help and services that they need.
